Statement of Claim

This case assigned to District Judge Moody
and to Magistrate Judge Harris

Both officers simultaneously denied me my right to privacy and violated my HIPPA rights in violating my right to have my medical information private and only between me and my healthcare provider. By the willful intrusion and blatant disregard for right to privacy between me and my clinician, I was denied medical consultation, leading to further medical treatment.

On October 1, 2020, at 2:50 P.M. while a detainee at the Pulaski County Regional Detention facility, D Unit; I stood in line as the other detainees until I showed my I.D. and awaited my medications, K-Millikan searched the database and inquired about my recovery status since a fall that occurred in the shower of Unit L on July 27, 2020.

Both nurse Millikan and I were interrupted frequently by another inmate who repeatedly left the line and returned. The impatient inmate shouted loudly asking to move ahead of me in line. I waited for nurse Millikan to address the inmate but she said nothing to assure him that he would receive the same dispensing advice that I was receiving if necessary.

When nurse Millikan resumed her explanation she was interrupted by both duty officers Conner and Herring. Both officers apparently not aware that they are not supposed to eavesdrop and interfere between confidential dialogue between the clinician and patient officer Herring shouted, "Are you getting medicine? And if so, why don't you hurry up and get out of line."

Again I waited for nurse Millikan to advocate on my behalf. (2)
She did nothing. It was extremely difficult to hear some
of her instructions because Officer Conner came over to
the nurses station and began listening to our conversation
and he shouted. "Take the GD medicine and get out
of line." There were just 2 people in line including the
impatient inmate. I then told both Conner and Herring
they were both violating my HIPPA rights to privacy and I told
them both that I was nearly finished and he shouted, "I
don't give a damn about you or no GD HIPPA rights. If
you want my name to file a MF'ing grievance I will
give it to you. Then officer Herring told me to get
the F--k out of the line that she didn't give
a damn about HIPPA either. Nurse Millikan told me
in a low voice that she would not forget our discussion
about nutritionals and she would follow up.

Acts or Omissions:

Neither Conner or Herring had the right to eavesdrop on the
discussion between me and the nurse. They were
derelict in their duties by not enforcing the condition of
calm and order within the unit by refusing to use their
enforcement authority to silence the heckler. Since Conner
blatantly denied knowledge of HIPPA and how the laws are
supposed to protect my right to privacy. If both officers
were aware of not only my HIPPA rights but my 14th
amendment rights which were also violated. If the
nurse and the 2 officers did not divulge their
personal medical information with me and allow me to
interrupt conversations with care givers, under the 14th
amendment, I should enjoy the same constitutionally
guaranteed rights. The grievance was registered nearly verbatim
on 10/1. When I checked for reply on 10/2, it had been deleted
